Introducing Emergency Light

A vital safety tool for:

- Hospitals
- Office Buildings
- Hotels
- Nursing Homes
- Schools
- Government Buildings

Emergency Light provides up to 18 hours* of potentially life saving light from its powerful krypton bulb.

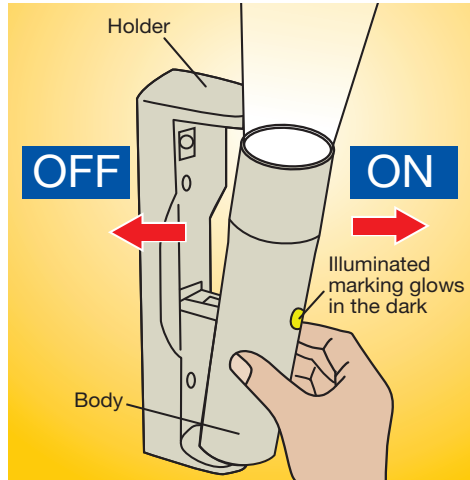

Depending on generators or other back-up systems may not provide enough of the necessary light where it is needed during an emergency or severe weather situation. That's why **Panasonic's Emergency Light is such a valuable safety tool.** The durable, wall mounted flashlight has an illuminated marking so it is easy-to-find and goes on automatically when removed from its holder.

**Perfect for any facility that values
Emergency Preparedness**

*With 2 standard size D replaceable alkaline batteries (LR20). Approximately eight hours with carbon zinc SHD batteries (R20).

**Panasonic
ideas for life**

Panasonic Emergency Light

How it works:

- Goes on automatically when removed from the holder – always ready
- Illuminated marking makes the Emergency Light easy to find
- Battery is disengaged during storage to avoid current consumption
